# 02 | Statistics

**35 States and 607 smiles made possible to date.**

# 03 | Highlights

**Zachary had a special treat by meeting Gordon Hartman the founder of Morgan's Wonderland. The family also toured The MAC at Morgan's Wonderland, and his parents were so touched by the opportunities Morgan's Wonderland provides for individuals with disabilities that they are considering a move to San Antonio to provide Zach with the medical care and treatment he needs.**

Paula was born with Coffin Siris syndrome, which is a rare genetic mutation that causes a multitude of problems. For Paula, it has caused global developmental delays aphasia, autism, and hyperactivity. She also suffers from eczema, scoliosis, trichotillomania, and multiple self-aggressive behaviors. She is non-verbal. At age five she is in the emotional state of a 1-year-old.

## Morgan Wonderland Gala

On September 23, Morgan's Wonderland held its 14th Annual Birthday Bash to celebrate the 30th birthday of the park's namesake at Morgans. Through the generosity of FirstDay Foundation, we were represented by Asennet Segura of FirstDay Foundation, Aaron Javener from BCFS HHS, Rosa Baez and Theresa Lowell of Compass Connections, and Sharon Krietzburg from Project Angel Fares. We were honored to welcome guests Sarah McLornan, Councilwoman Phyllis Viagran, District 3, and guest John Marshall.

Morgan's met their goal and raised over \$1,000,000. They also announced the early closing of the park beginning November 1st so that they can begin a multi-million dollar renovation of the park in time to make their March 2024 opening. Renovations include a rebranding of all the entities under the Morgan's umbrella.

Zachary, Eliana, Silas, Landyn, Darnell and Charles; five of our recent children all have some form of Cerebral Palsy, in varying stages.

Cerebral Palsy (CP) is a group of neurological disorders that appear in infancy or early childhood and permanently affects body movement and muscle coordination. CP is the leading cause of childhood disabilities in the U.S.

# 04 | Updates

The 2024 Project Angel Fares Golf Classic will be held on April 5th at Canyon Springs Golf Club.

Please join us in welcoming Amegy Bank as our title sponsor for this event.

## MAC 1 Year Celebration

Morgan's Multi-Assistance Center (The MAC) recently celebrated a milestone with one year of serving MAC Members. In their first year, 51 Navigators assisted over 3,200 members from over 48 countries across Texas, ranging from 0 to 100 years old.

Project Angel Fares is happy to be a part of those services and again be providing transportation assistance to 18-year-old Jasmine from Ingleside, TX. Last July, Jasmine underwent surgery on her right eye. We assisted the family through the generosity of Holiday Inn/Baywood Hotels with a 2-night stay and a \$50 Valero Fuel Card.

Jasmine will have surgery on her left eye at the end of October, and we will once again assist the family and provide a 2-night stay and fuel assistance for her family. We thank Holiday Inn/Baywood Resorts for providing the room vouchers for their stay.
