

Project Angel FaresTM
Making the Trip of a Lifetime Possible

PROJECT ANGEL FARES

01 | Milestones & Accomplishments

2024 Season for Project Angel Fares

The 2024 Season for Project Angel Fares kicked off with our first family the end of March. Sweet Raelyn and her family from Oneida, NY had been waiting since 2022 to complete their trip. She was a trooper and made a maiden flight on the new Rockets Sky Flight Zip Line ride at Morgan's Wonderland, while initial fear washed over her face. Upon completing the ride and asking if she was okay, all she could do was yell, "I want to do it again!!!".

Project Angel Fares Charity Golf Classic

On April 5, the Charity Golf Classic was a huge success, with PAF surpassing its goal of \$135,000.00. Many thanks to First Day Foundation and Amegy bank for their continued support. We are also very excited that we had 8 new sponsors join the event. We rounded out a perfect day with 89 golfers enjoying Canyon Springs Golf Club.

02 | Statistics

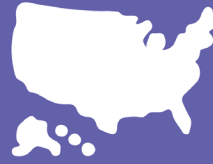

Year to Date

12 Children with disability diagnosis

47 Family Members

8 states
New York, Wisconsin, Florida, Ohio, Michigan, Tennessee, Texas

10,000 Miles Traveled to San Antonio

Save the Date

Save the date! The 2025 Charity Golf Classic has been scheduled for March 28, 2025, at Canyon Springs Golf Club. We are excited and optimistic about hosting another successful event. Your participation will help us sustain our efforts in serving families and providing life-changing opportunities for children to experience possibilities they never imagined. Join us in making a meaningful difference in our community!

In Remembrance

The final family to join us in October 2023, was Gavin, his little brother and parents from Wittenburg, Wisconsin. Gavin was a joy and the family has expressed that they cherish the visit we provided them as they had no idea it would be the final time they would vacation as a family. We are very sad that suddenly on March 11, 2024, Gavin got his angel wings and passed unexpectedly.

Project Angel Fares is very proud to have added Gavin Kowalski's name to the Memorial Wall at Morgan's Wonderland, where it will remain a loving reminder of a special little boy who loved the carousel. His family is making a pilgrimage to San Antonio to visit the wall and pay respects to their son, brother this coming August.

Meredith

Meredith, 11 years old from Cantonment, Florida: on her application her mom stated the thing she wanted to remember was Meredith's smile. She was full of joy and smiles as she made her way through the park with her mom and stepfather. Meredith is diagnosed with Sanfilippo Syndrome, a rare and incurable genetic metabolism disorder. A change in a single gene makes her body unable to break down certain carbohydrates (sugars). It is found in 1 out of 70,000 births. This leads to serious problems in the brain and nervous system. Her older brother succumbed to the same disease in 2019.

Isabelle & Sophia

Isabelle, 10 years old and her sister Sophia from Marthasville, Missouri, 12 years old, both diagnosed with Cohen Syndrome.

Cohen Syndrome is an inherited disorder that affects many parts of the body and is characterized by developmental and intellectual delay. The exact incidence of the syndrome is unknown. It has been diagnosed in fewer than 1,000 people worldwide.

Ana

Ana, 14 years old from Navarre, Ohio, has Cerebral Palsy with an underlying seizure disorder. But her favorite thing to do is equine therapy and wheelchair soccer. She is nonverbal but can communicate on her talking device in both Spanish and English. We had the pleasure of having lunch with the family during their trip, and I can attest, she loves Texas BBQ and corn.
